

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### The City of Livingston Water Supply Contains Levels of 1,2,3-Trichloropropane Above the Drinking Water Standard

Our water system violates a drinking water standard that was recently adopted by the State Water Resources Control Board. Although this is not an emergency, as our customers, you have a right to know what you should do, what happened, and what we are doing to correct this situation.

We routinely monitor for the presence of drinking water contaminants on a quarterly basis. **For the 1st Quarter (January) 2023** a water sample result from **January 2023** indicates that the City's water supply contains 1, 2, 3 -TCP in concentrations ranging from **0.11 ug/l to 0.32 µg/l**. These concentrations are above the Maximum Contaminant Level (MCL) for 1, 2, 3 - TCP of 0.000005 mg/l (milligrams per liter) which is equivalent to 0.005 µg/l (micrograms per liter).

The City will continue conducting quarterly monitoring until treatment is installed at all the active sources. Customers will receive quarterly notices with updates on the progress being made until compliance with the 1, 2, 3-TCP MCL is achieved.

#### What should I do?

- **You do not need to use an alternative water supply (e.g., bottled water).**
- This is not an emergency. If it had been, you would have been notified immediately. However, some people who drink water containing 1, 2, 3 -TCP in excess of the MCL over many years may have an increased risk of getting cancer.
- If you have other health issues concerning the consumption of this water, you may wish to consult your doctor.

#### What happened? What is being done?

The City is working diligently towards the construction of treatment systems that will remove 1,2,3 -TCP from the water supply. We anticipate resolving the 1,2,3 -TCP violation by 12-25-25.

For more information, please contact Vanessa Portillo, City Manager at (209) 394-5550 or 1416 C Street, Livingston, CA 95334.

*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.*

#### Secondary Notification Requirements

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code section 116450(g)]:

- **SCHOOLS:** Must notify school employees, students, and parents (if the students are minors).
- **RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS** (including nursing homes and care facilities): Must notify tenants.
- **BUSINESS PROPERTY OWNERS, MANAGERS, and OR OPERATORS:** Must notify employees of businesses located on the property.

This notice is being sent to you by the City of Livingston. State Water System ID#: 2410004.

Date distributed: February 9, 2023
